Blastrac 350E-EBE

Working width : 500 mm
 Blasting capacity : 20-35 m²/h on steel up to SA 2,5
 Working areas : horizontal steel surfaces inside storage tank bottoms and outside tank roofs in petrochemical industries (removal of coatings, paint, rust, mill scale)
 Wheel power : 11 kW
 Main assets : closed circuit, dust free (if connected to an appropriate dust collector) / Electrical drive system / Independant drive for each rear wheel / Modular construction allows the machine to be disassembled, to pass through a ø600 mm storage tank access hatch

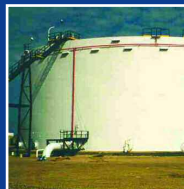

Recommended starting kit :

Item reference :	Item description :
350-0000-E	Shotblast machine 350E-EBE, suction hose, users manual
DAMM-350 UNI	Dust collector
S390, S460	Blastrac steel shot
SG16, SG25	Blastrac steel grit
