

# Dust Containment Systems

## HEAVY-DUTY VACUUM

### 8-54DCSGI

Blastrac dust collectors are designed specifically for the rigors of working with concrete, masonry/tile mortar, and asphalt materials to reduce the amount of debris and dust generated on surface preparation job sites. This reduction creates environmentally friendly work conditions, helps diminish operator fatigue, minimizes health issues, and allows work on simultaneous projects.

The 8-54DCSGI, an eight cartridge, auto-pulse industrial vacuum, is preferred by professional contractors requiring continuous operation and high performance. It is designed to maintain productivity with a powerful motor for increased air flow, heavy-duty filters, and components that are protected from dust and debris for longer life.

An 11 second auto-pulse cleaning system helps prolong filter life, as the 8-54DCSGI delivers a maximum airflow of 1,650 cfm and static pressure of 21 inches. The cam-lock, high-capacity dust bin features castors and handles for ease of transport and debris disposal.

The 8-54DCSGI greatly reduces airborne dust and particulate and withstands the demands of heavy commercial or surface-prep contractor use, to provide a cleaner and safer work environment.

Cam-lock, high-capacity dust bin with large wheels and handles for ease of transport and debris disposal

#### SPECIFICATIONS:

- Static Pressure:** Maximum 21 in H<sub>2</sub>O
- Air Flow:** 1650 cfm maximum
- Dust Bin Capacity:** 420 lbs (191kg)
- Voltage:** 460V, 3ø, 60 Hz
- Amperage:** 14.2A
- Power Cord:** 50 ft. (15m)
- Dust Hose Connection:** 6 in. (152mm)
- Dimensions:**  
L 75 in. x W 42 in. x H 58 in.  
(1905mm x 1067mm x 1473mm)
- Weight:** Net 1235 lbs (560kg)

#### FEATURES AND BENEFITS:

- New 4 wheel design for more stability
- Eight cartridge filter system provides for comfortable, dust-free working
- Auto-pulse cleaning, with 11-second pulses prolongs filter life
- Unit features an available electrical outlet on dust collector & keeps connection to on-site power through a single cord
- Durable steel construction
- Cam-lock, high-capacity dust bin
- Electrical overload safety
- Bin features large wheels and handles for ease of transport and debris disposal

The Trusted Choice of Professional for Over 30 Years
